

Norfolk & Western / Virginian Caboose Order Form

Shown below is the version offering for each class type of caboose we are offering. It is important to note that the 'service period' data that we are providing is based on dates used on design tracings from the individual railroads. The dates reflect the intentions of the roads and the actual implementation may have varied slightly, this should be kept in mind when viewing specific photos of individual rail equipment. The specifics of the individual paint schemes are listed on the last page of the project information brochure.

Norfolk & Western 'CF' Versions (class number range 518000-518380, multiple car numbers will be produced)					
Version	Service Period	Paint Scheme	Truck Type	Roof Walkways	Price
