'54 -'68	11	Expanded Steel	Late	Freight Car Red	Shadow Keystone	Multi-color	DB4a
'54 -'68	12	Expanded Steel	Late	Freight Car Red	Shadow Keystone	Multi-color	HB1a

The table above provides reference for those interested in modeling specific time periods. While the data above has been thoroughly researched, the exact time periods are not carved in stone, so there is some latitude in selecting specific desired styles while still meeting your time period criteria, there were certainly periods of overlap. You should also note that when orders are placed for multiple cars we will ship all cars with unique road and container numbers unless otherwise requested.

Some final detail notes regarding our G22b gondolas; regarding couplers, as noted our cars will come equipped with prototypical draft-gear boxes and scale operating brass couplers, we will make every effort to simplify the process of converting to Kadee style couplers for those so inclined. For those interested in the weight of our loaded G22b, they weigh approximately 2.3 pounds so they carry enough weight out of the box to run reliably in long consists. Should you have more specific questions about features or details, please feel free to contact us directly so we can provide the specific information you require.

---

### PRR G22b Gondola w/Containers Order Form

The original price per car was \$650 plus \$15 shipping. Since the project is sold out, only secondary market models may be available for purchase, please contact Kohs & Company to determine possible availability and current pricing, use the ordering space below once availability has been confirmed. Phone: 248.625.6396 Email: info@kohs.com
