6 (1 left)	'74 - '76	'FW'	Penn Central Green	Black	766162	PC

The total production quantity for this project was 120 units, divided between the listed versions. The table above provides reference for those interested in modeling specific time periods. While this data has been thoroughly researched, the exact time periods are not carved in stone, so there is some latitude in selecting specific desired styles while still meeting your modeling period criteria. You should also note that when orders are placed for multiple models of the same version, each model will have the same car number since there was only one FD-2 and one FW-1, the FD and FW cars always had car numbers unique to their type.

As shown in the project brochure, we have developed appropriate loads for both car types and they are available and priced separately as indicated below. If you would like to include the proper load in your order, please so indicate in the appropriate space when filling in your order specifics.

Should you have more specific questions about features or details, please feel free to contact us directly so we can provide the information you desire.

PRR FD-2 & FW-1 Flat Car Order Form

The individual model price is \$1,500 plus shipping which will be quoted based on your location, please contact us directly to determine availability and to receive a shipping quote. The price for the FD type generator load is \$295 and the forged stamping machine frame for the FW type is \$249. Please send payment to: Kohs & Company Inc, P.O. Box 689, Clarkston, MI 48347 USA
